

MainWindow::MainWindow

```
graph LR; A[MainWindow::MainWindow] --> B[MainWindow::createUI]; B --> C[MainWindow::createStatisticsTab];
```

The diagram illustrates a three-step process for creating a MainWindow. It consists of three rectangular boxes arranged horizontally, connected by blue arrows pointing from left to right. The first box, labeled 'MainWindow::MainWindow', is white with a black border. The second box, labeled 'MainWindow::createUI', is also white with a black border. The third box, labeled 'MainWindow::createStatisticsTab', is shaded gray with a black border. The flow starts with the first box, moves to the second, and ends with the third.

MainWindow::createUI
